Abstract Title: *Urban Growth Waves and Commuting Transition in the Conterminous USA: From 1980-2010*

11:20 AM Author(s): *Deborah Naybor - University of Buffalo
Jessie Poon, PhD - University of Buffalo
Irene Casas, PhD - Louisiana Tech University

Abstract Title: *Activity Space, Mobility Disadvantage and Development: Mobility and Livelihood Opportunities for Rural Ugandan Widows*

Session Description: We explore issues pertinent to the study of human and non-human mobilities. We address the economic, social, cultural, political, environmental, theoretical, and methodological issues related to the geographies of mobility. Topics include: space-time modeling and GIS-based analysis of mobility; mobility research methods; commuting; leisure travel; tourism; mobility by different transport modes; sustainable mobility; mobility and resilience; disasters, natural hazards, and mobility; mobility, wellbeing and health; mobility, energy consumption and greenhouse gas

emissions; migration; (im)mobility and social differentiation and inequality; (im)mobilities of the oppressed, subjugated and persecuted; (im)mobility and social exclusion; experience of (im)mobility; politics of (im)mobility; and other relevant areas.
